-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5, 21 and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Richards (U.S. Patent No. 4,887,601).

Richards discloses a clip that has at least two engagement legs, provided with gripping surfaces (see Fig. 2), extending approximately parallel to one another including respective distal bridging tips and respective proximal insertion tips as well as a connecting bridge coupled to the distal bridging tips of the two engagement legs that are at least two elongated section extending along side on another. The elongated section extends along a non-linear trajectory and includes one of a depression and a dome (see Fig. 1). Also disclosed is that the engagement legs and the connecting bridges are constructed from a biocompatible material (Col. 4, lines 29-31).

Response to Arguments

Applicant's arguments filed July 19, 2006 have been fully considered but they are not persuasive. The applicant uses the term of approximately parallel, which is a relative term. It is deemed that the legs of Richards extend approximately parallel to one

another as seen in the figure below modified from Figure 1 in Richards. The dotted lines of the figure further show that the legs extend approximately parallel.

In response to Applicant's argument that the clip of Richards cannot function as the applicants, it has been held that a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitations. *Ex parte Masham*, 2 USPQ2d 1647 (1987).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 3733

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
